

Early Childhood Music services

Music with Preschoolers

What to expect!

Each lesson fosters the exploration of sounds and allows children the freedom to create their own music with their voice, body and carefully chosen instruments. With each visit I touch on one musical goal, for example: Beat, rhythm, timbre, pitch, tempo, meter, dynamics, improvisation, musical memory and much more. Majority of my visit focus on the pure enjoyment of music and the magical impact it has on the lives of children and adults.

- Welcome song- Hello Everybody
- Finger plays
- Movement games- Help foster fine and gross motor skills, co-ordination, body awareness, relating time, space, energy and relaxation
- Singing component with and without instruments
